Dear Mr. Strimbu,

I received your message yesterday, you mentioned a woman in your office may have the electronic filing but have not been able to get in touch with her. You also mentioned that you have E-Mailed her. If for some reason she forgets to contact you, as I mentioned to you on your voice mail 4/5/04 that I will over night express you a copy of the electronic file if you need a copy. I will call in a day or two to see how things are going. You did mention in your last voice mail last week that you would definitely have something for me by the end of this week.
